KNITTING INSTRUCTIONS

Part 1: Cast-on

Cast on 16 sts.

Part 2: Fisherman´s rib

The headband is worked in fisherman´s rib.

Work approx. 50 cm (106 Rounds) in fisherman´s rib.
You can easily adjust the length of the headband by simply measuring your head circumference.

Part 3: Binding off

To get a clean transition, it is important to cast off the stitches as they appear.

Part 4: Connecting the ends

Slide the two ends into each other so that they lie alternately on top of each other.

Sew all layers together.

Turn the headband from the inside out so that the seam is on the inside.

Part 5: Finishing

Bathe or moisten the headband and let it dry while lying flat.

Note: We highly recommend wet blocking your finished garment. Most fibres will plump up and relax, the stitches will even out and cohere into a beautifully even, soft and sturdy fabric.

The headband is ready!

Our Knitwear Care Recommendation

We recommend washing the garment carefully by hand in lukewarm water. Soak the knitted garment without shaking and then rinse it. Wrap the garment in a towel and gently squeeze out the water. Do NOT wring! Unwrap and lay it flat to size on a new towel to air dry.
